

3rd Indo-German Conference on

Technology Trends and Developments in Packaging Printing

PM INDIA
Linking High Potentials

22 - 23 November 2011 | 9 am - 5 pm
Mumbai, India

3rd Indo-German Conference on Packaging Printing

Printed packages and labels consist of a host of applications, such as aseptic packages, packages for agricultural purposes, beverages, food products, health and beauty care, pharmacy and hygiene products, tissue and decorative products on a variety of substrates from paper and paperboard to plastics, sacks, glass, metal etc. In packaging products and labels almost all available printing processes or a combination of them are employed to make it as attractive as possible with graphic and structural elements. Brand protection is included by incorporation of security features in certain cases.

We would like to announce the 3rd Indo-German Packaging Printing conference, hosted by pmlIndia, a joint venture of the leading, world renowned university in modern printing and media technology, the 'Institute for Print and Media Technology at Chemnitz University of Technology', Germany and the leading printing consultant in India 'Graphic Arts Technology & Education'. This conference brings together experts from the European and Indian printing industry to discuss the science and technology involved and to provide expertise in the area of special applications.

The conference programme will focus on the following key areas:

- Current industry trends in packaging printing
- Developments in the printing processes for packaging and label applications
- Security aspects in packaging and label printing
- Functional printing and its role in packaging and label printing

Programme

Topics discussed will include:
